Scallions	Spinach

DID YOU KNOW???

Not everyone in the U.S. observes the time change. Hawaii and Arizona remain on standard time year-round along with several U.S. territories.

The proper expression for the time change is "**daylight saving time**" and not the commonly used plural version "daylight savings time" because the point is the saving of daylight. Some include a hyphen between the words "daylight" and "saving" when you consider the terms to be a compound modifier that modifies "time".

IT'S TIME TO SPRING FORWARD... Don't forget to set your clock forward one hour when you go to bed Saturday, March 11th. Fire Departments advise checking the batteries in your smoke detectors twice a year. When you change your clocks, check your batteries!

Happy St. Patrick's Day!
